**Complete Construction and Engineering Solutions**

## **INTRODUCTION**

MCA Group service's the demand for engineering expertise in the Australian construction industry.

MCA Group now provides a wide range of earthworks, civil works, fabrication, installation and construction services to industries including; Mining and resources, Marine including reclamation and dredging, Power and Water infrastructure projects Australia wide.

Our experienced management team includes the skill set and experience to allow MCA Group to provide total industry solutions for our customer base in any industry. Together with our team of key personnel including tradesmen, engineers and specialist suppliers we provide industry specific companies with total solution outcomes. Whether your need is for one specific part of the project scope or complete earthworks, civil, fabrication and installation of structural steel, mechanical installation, and management of the project to time and budget we will support your project needs.

MCA Group understands the full range of the engineering service industry's requirements and as a result we are a performance driven company. MCA provide construction engineering support with full back up and planning for Safety, Environment and Quality along with completion of projects on time and within budget.

Having two offices currently; Parkes, NSW and Mt Isa, QLD, MCA Group easily services the eastern states of Australia, a new sub office is planned to be established in South Australia to service the central Australian and Western Australian customer base.

MCA Group have also successfully completed major projects in Victoria and South Australia and assembled project crews for deployment and execution of projects in many remote locations throughout Australia.

## Complete Construction and Engineering Solutions

### Mission Statement

The overall objective of MCA Group is to provide safe, timely and cost effective engineering services for our clients, which meets and exceeds their requirements, needs and expectations.

We believe Quality starts with a base foundation; people, planning strategies and documentation, and we are constantly striving to achieve excellence within our own organisation along with our working partners in the industry.

At MCA Group Quality, the Environment and Safety is the responsibility of every staff member. All staff members are expected and encouraged to participate in all quality, environmental and safety related activities.

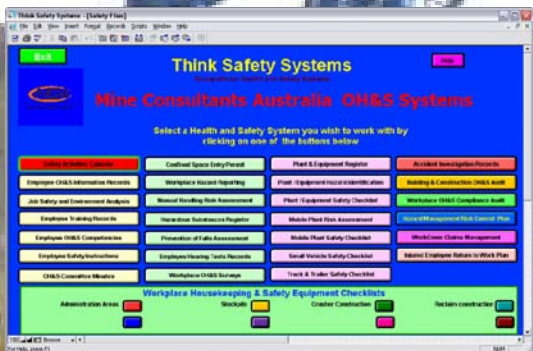

Compliance with relevant Environmental Policies is held with the utmost importance and we work closely with our clients to achieve compliance.

### Safety Statement

At MCA Group our Occupational Health and Safety Policy is based on a belief that the well-being of people employed at work, or people affected by our work, is the highest priority and must be considered during all work performed on our behalf. People are our most important asset and their health and safety is our greatest responsibility. The public shall be given equal priority to that of our employees.

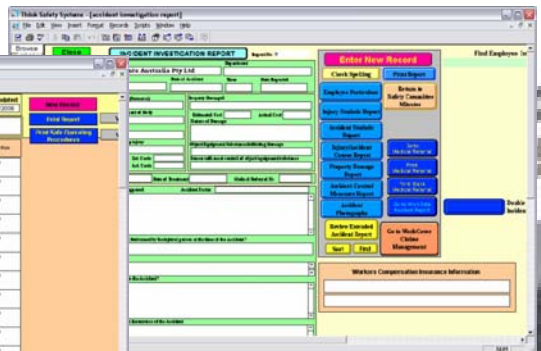

The objectives of our Safety Policy are:

- To achieve an accident free workplace.
- To make health and safety an integral part of every managerial and supervisory position.
- To ensure health and safety is considered in all planning and work activities.
- To involve our employees in the decision making processes through regular communication, consultation and training.
- To provide a continuous program of education and learning to ensure that our employees work in the safest possible manner.
- To identify and control all potential hazards in the workplace through hazard identification and risk analysis.
- To ensure all potential accident/incidents are controlled and prevented.
- To provide effective injury management and rehabilitation for all employees.

**Job Safety and Environmental Analysis**

Complete Construction and Engineering Solutions

## Construction Services

### Full Project services from Earthworks to Completion

MCA Group has a fully serviced fabrication workshop in Parkes New South Wales. The Parkes location is serviced by major Rail and road transport and is fast becoming a major transport hub for all large freight movements Australia wide. Our range of earthmoving and construction equipment can cater for any project size and if we don't have the right piece of equipment in our fleet we will know where and how to get it at competitive rates from companies we partner with. Our services include:

- Earthworks
- Civil works
- Full Design and fabrication or supply of profile cutting for your manufacturing requirements.
- Dredging and reclamation projects
- Erection of structural steel
- Mechanical Installation

Regardless of project size, MCA regards the management of your projects from \$20K to \$200M AUD with the same regard to safety, quality, schedule and budget.

## Mechanical Installation

MCA Groups project work is completed down to mechanical installation of the plant and equipment.

Although quite often involving other facets of MCA skills base including Civil and structural installs, MCA is often brought in to perform the mechanical.

Regardless of the client's direct involvement, MCA costs and plans the project from start to finish, and we work together with the equipment supplier or mine to ensure the project quality assurance requirements are maintained and minimal disruption to existing operations occurs.

MCA Group and its management team look forward to discussing your requirements.
